Index to Volume XLVI

January—December, 1918

A

Abell-Howe Co., Branch Offices Established by... 4
Accounting (See Cost Accounting)...
Accounting System, A Simple Foundry Cost and.. 256
Adams, F. W., on the Metallurgy of Cast Iron Airplane Cylinders... 128
Aircraft, Metals Used in the Construction of.... 66
Aircraft Specifications for Cast Iron... 243
Aircraft Standards, International... 67
Air and Light in Foundries and Forge Shops, by David Lupton's Sons Co., Review of... 589
Air-Driven Machines, How to Gage Amount of Compressed Air Used by... 31
Air Jet Nozzle, Description of Combination Liquid Sprayer and... 592
Airplane Cylinders, Metallurgy of Cast Iron.... 128
Airplane Engines, Composition of Aluminum Piston in German... 460
Allied Metals Congress in Milwaukee, Report of.. 501
Alloy, Description of New Zinc Base... 403
Alloy for Contact Points, Description of... 494
Alloy, How to Cast a Chromium-Nickel, Successfully... 470
Alloy, How to Make Use of Brittle... 575
Alloy That Will Resist Sulphuric Acid, Formula for... 168
Alloys, How to Make Highly Leaded... 469
Alloys, Names and Composition of Miscellaneous ...Data Sheets Nos. 249 and 250, Jan.
Alloys, Odd and Unusual...Data Sheet No. 260, June
Alloys, Phosphor Bronze...Data Sheet No. 256, April
Alloys, Pouring Temperatures of Copper... 27
Alloys, Tests of Lead-Tin-Antimony...Data Sheets Nos. 271 and 272, Dec.
Alum Solution, Metal Mixture Which Will Resist... 27
Alumina Inclusions in Aluminum Castings, How to Avoid... 431
Aluminum Alloy for Aviation and Marine Motor Pistons... 167
Aluminum Alloys, Melting and Casting... 164
Aluminum, Best Method of Melting, in an Oil-Fired Furnace... 219
Aluminum Bronze Castings, Overcoming Difficulties in Making... 534
Aluminum Bronze, Mixture for... 219
Aluminum Bronze, Results of Investigation of the Constitution and Hardness of... 322
Aluminum Bronze, Results of Investigation of Die-Casting of... 272
Aluminum Bronze, Satisfactory Solder for... 494
Aluminum, Casting, Against Iron... 321
Aluminum, Casting, in Plaster Molds... 81
Aluminum Castings, How to Avoid Pits in... 28
Aluminum Castings, How to Overcome Porosity in 81
Aluminum Castings, How to Prevent Blowing of Steel Inserts in... 430
Aluminum, Formulas for Solders for... 219
Aluminum, Good Flux for... 138
Aluminum, How to Avoid Excessive Shrinkage of.. 220
Aluminum Pistons in German Airplane Engines, Composition of... 460
Aluminum, Process for Soldering... 391
Aluminum, Removing, From Brass Scrap... 575
Aluminum, The Practice of Melting and Casting—I 104
Aluminum, The Practice of Melting and Casting—II 164
American Cast Iron Pipe Co., Making Good With Tradition Discarded at the Plant of... 115
American Clay Machinery Co., Booklet Showing Kiln Construction Issued by... 64
American Dressler Tunnel Kiln, Inc., Description of Annealing Furnace Made by... 566
American Foundrymen's Association, Announcement of Annual Meeting of... 269
American Foundrymen's Association, Milwaukee as Meeting Place for... 183
American Foundrymen's Association, Milwaukee Welcomes... 471
American Foundrymen's Association, Program for Annual Meeting of... 433
American Foundrymen's Association, Program for Annual Meeting of... 474
American Foundrymen's Association, Program of Exhibition at Meeting of... 484
American Foundrymen's Association, Report of Annual Meeting of... 501
American Foundrymen's Association, War Service Committee of... 57
American Institute of Metals (See American Institute of Mining Engineers)...
American Institute of Mining Engineers, Plans for Annual Meeting of Metals Branch of... 269
American Institute of Mining Engineers, Plans for Meeting of Iron and Steel Section of... 269
American Institute of Mining Engineers, Program for Annual Meeting of Metals Division of.... 433
American Institute of Mining Engineers, Program for Annual Meeting of Iron and Steel Section of 433
American Institute of Mining Engineers, Merger of, With American Institute of Metals... 217
American Institute of Mining Engineers, Report of Annual Meeting of Metals Division of.501. 530
American Institute of Mining Engineers, Report of Annual Meeting of, Iron and Steel Section of ...501, 531
American Magnesium Corp., Magnesium Manufactured by... 68
American Malleable Castings Association, Plans for Annual Meeting of... 269
American Malleable Castings Association, Report of Milwaukee Meeting of...501, 509
American Metallurgical Corp., Plans of, for Installing Heat-Treating Plant... 450
American Radiator Co., How Semisteel Shells Are Made by... 581
American Road Machinery Co., How the, Casts Pipe Sections by Continuous Pouring... 73
American Society for Testing Materials, Plans for Annual Meeting of... 247
American Society for Testing Materials, Report of Annual Meeting of... 302
American Society of Mechanical Engineers, Discussion of Cost Systems at Meeting of... 307
Anchor Chain, How Steel, is Molded and Cast... 375
Anchor Chain, Results of Tests of Cast Steel... 310
Annealing by Muffle and Pot Ovens Compared... 154
Annealing Copper, Facts Concerning... 360
Annealing Furnace for Malleable Iron, Description of Continuous Type... 566
Annealing Gray Iron Cylinders, Method of... 275
Annealing Malleable Iron, Experiments in... 564
Anthracite Coal for Melting Iron in a Cupola, Use of... 325
Anti-Friction and Babbitt Metals...Data Sheets Nos. 251 and 252, Feb.
Antimony, Reducing, in a Reverberatory Furnace 533
Antimony-Tin-Lead Alloys, Tests of...Data Sheets Nos. 271 and 272, Dec.
Applying the Principles of Cost Engineering... 309
Army and Navy, Making Ordnance Steel for the.. 535
Army Cast Steel, Revised Specifications for... 241
Asbestos Protected Metal Co., Change in Name of 247
Asbestos to Prevent Stools From Burning Onto Crucibles, Use of... 215
Aspromet Co., Asbestos Protected Metal Co. Changed to... 247
Associated Foundry Foremen of New York, Officers Elected by... 64
Aurora Automatic Machinery Co., Merger of, With Independent Pneumatic Tool Co... 286
Auto Engine for Cupola Blower, Success of... 229
Automobile Radiators, Soldering... 580

B

B. & B. Mfg. Co., Description of Power-Operated Post Squeezer Made by... 187
Babbitting, Preparing Car Brasses for... 27
Babbitt and Anti-Friction Metals...Data Sheets Nos. 251 and 252, Feb.
Babbitt Metal, Tentative Specifications for... 305
Babbitts Used by Automobile Makers...Data Sheet No. 255, April
Background for Bronze Name Plates, How to Obtain Colored... 371
Barber-Greene Co., Description of Portable Elevating Conveyors Made by... 548
Basic Electric Furnace Bottoms, How to Make.. 403
Battlefield, Description of Foundry Built and Operated on the... 545
Battle Front, Foundryman's Message from the 510
Bearing Metal, Function of Lead in... 339
Bearing Metals, Conservation of Tin in Bronze.. 532
Bearing Metals, Hardness of...Data Sheet No. 266, Sept.
Bearing Mixture Equivalent to Malleable Iron, a Cheap... 534
Bearings, Overcoming Difficulties With Car Journal... 167
Berry, Gordon L., Review of Booklet by, on Eye Hazards in Industrial Occupations... 153
Berry Metal Co., Completion of Plant of... 286
Bettendorf Co., Description of Large Molding Machine for Railroad Work Made for... 591
Birdsboro Steel Foundry & Machine Co., How the, Makes Ship and Railway Castings... 415
Black Bell Metal Alloy, Mixture for... 220
Black Heart and White Heart Malleable Iron, Difference Between... 133
Bleininger, A. V., on the Manufacture of Crucibles With American Clays... 274
Block Patterns, Making Castings of Uniform Thickness from ...Data Sheets Nos. 263 and 264, Aug.
Blowers, Description of Apparatus for Testing Rotary... 337
Blow-holes in Yellow Brass, How to Prevent... 80
Boiler, Theory and Advantages of Waste-Heat, for Malleable Furnaces... 221
Bonus System at the Plant of the American Cast Iron Pipe Co... 116
BOOK REVIEWS:
Calculating the Mixtures of Iron, by W. H. Wangelin... 336
Coremaking, by Dr. Richard Moldenke... 548
Electric Furnaces in the Iron and Steel Industry, by Rodenhauser, Schoenawa and Von Baur... 138
Eye Hazards in Industrial Occupations, by Gordon L. Berry... 153
Scrap Metals, by George H. Manlove, and The Old Metals, by Charles Vickers... 537
Boomer & Boschert Press Co., Consolidation of Business of W. D. Dunning With... 200
Booth-Hall Electric Furnace Installations... 8
Boring Mill Table, How to Cast a Large... 152
Brass, Bronze and Copper Industry, Census Report on... 25
Brass Bushings, How to Avoid Shrinkage in Solid 166
Brass Bushings, How to Make, in Oil-Fired Crucible... 28
Brass Bushings, How to Prevent Sand in... 28
Brass Carburetors, How the Langsenkamp & Wheeler Brass Works Molds and Casts... 465
Brass, Cheap Red, Mixture... 439
Brass Castings, How to Prevent Cracks in... 28
Brass Castings, How to Prevent Holes in, by Careful Melting... 371
Brass Castings, How to Prevent Metal for, From Becoming Oxidized in Melting... 26
Brass Castings, How to Prevent Spongy... 470
Brass Castings, Melting Metal for, in Oil-Fired Furnace... 107
Brass Castings, Using an All-Scrap Mixture for... 576
Brass, Formulas for Solders for... 219
Brass Foundry, Gas Furnace Operation in a... 576
Brass Foundry, Improper Operation of a Gas-Fired Furnace in a... 575
Brass Foundry Industry, Gains Made by, in Two Years... 457
Brass Foundry Metals, Melting of... 236
Brass Foundry With Automatic Ventilation, Description of... 569
Brass, How to Avoid Losses in Melting... 575
Brass, How to Operate a Gas-Fired Furnace for Melting... 470
Brass Ingots, How to Get a Uniform Color on.. 469
Brass, Melting in Various Types of the Electric Furnace... 314
Brass Melting, Substitute for Charcoal for... 167
Brass, Mixture for... 220
Brass Mixtures, Cheap...Data Sheets Nos. 257 and 258, May
Brass Mixtures, How to Add Ferromanganese to.. 220
Brass, Oxidation of Copper in Making... 220
Brass Mixtures, Preventing Porosity and Honeycombing in... 271
Brass, Preventing Blow-Holes in Yellow... 80
Brass Scrap, Removing Aluminum From... 575
Brass Sweepings, Tests on Reclaiming... 373
Brasses, Improved Method of Making Mill... 39
Brasses, Mixture for Street Railway Journal... 82
Brass Steam Valves, Mixture for... 219
Brass Turnings, How to Separate White Metal From... 138
Brass Valve Pattern, How to Repair a... 386
Bridge Discs, Discussion of Specifications for and Recommended Changes in Bronze Turntable and Movable... 368
Bridging of a Small Cupola... 153
British Foundries, Heavy Tasks Performed by Women in... 69
British Foundrymen's Association, Report of Annual Meeting of... 405
Brittle Alloy, How to Make Use of... 575
Bronze Bearing Metals, Conservation of Tin in... 532
Bronze Bearing Metals for Turntables and Movable Railroad Bridges, Tentative Specifications for.. 304
Bronze, Brass and Copper Industry, Census Report on... 25
Bronze Bushings, How to Overcome Porosity in.. 270
Bronze Bushings, Mixtures for... 576
Bronze Mixture, A High Tensile... 372
Bronze, Mixture for High Speed, for Bearings.... 271
Bronze Name Plates, How to Obtain Colored Background for... 371
Bronze Tablets, Method of Molding and Casting.. 329
Bronze Bushing, Proportion of Phosphorus Used in Making Large... 106
Bronze Castings, How to Avoid High Sulphur Content in... 27
Bronze Castings, Melting Metal for, in Oil-Fired Furnace... 107
Bronze Castings to be Subjected to Hydraulic Pressure, How to Make... 220
Bronze Castings, How to Make Close-Grain..... 376
Bronze Castings, How to Weld... 431
Bronze, Coating Ingot Molds to Prevent Adherence of... 26
Bronze Piston Sleeve, How to Overcome Porosity in 321
Bronze Rings, Difficulties in Casting Large..... 107
Bronze Sleeves, Casting, Onto Steel Shafts... 82
Bronze Tablets, Molding and Casting Ornamental.. 216
Bronze Turntable and Movable Bridge Discs, Discussion of Specifications for and Recommended Changes in... 368
Bronze Mixture for Hydraulic Castings... 321
Bronze Mixture, Method for Melting a Special.. 271
Bronze-Veneered Cast Iron Gear Blanks, How to Cast... 106
Bronze Worm Gears, Method for Chilling..... 168
Brown Specialty Machinery Co., Description of Charging Truck for Malleable Iron Foundries Made by... 390
Bucket Loader for Sand Mixers, Description of... 549
Buffing, Importance of, in Preparing Metal Parts for Electro-Plating... 353
Bunting Brass & Bronze Co., Description of New Foundry of... 569
Burning-in, How to Repair Manganese Bronze by 380
Bushings, Mixtures for Bronze... 576

Data Sheets, Volume XLVI

January—December, 1918

Nos. 249 and 250, January, Names and Composition of Miscellaneous Alloys

Nos. 251 and 252, February, Babbitt and Anti-Friction Metals.

No. 255, April, Babbitts Used by Automobile Makers.

No. 256, April, Phosphor Bronze Alloys.

Nos. 257 and 258, May, Cheap Brass Mixtures.

No. 259, June, Silver Solder.

No. 260, June, Odd and Unusual Alloys.

Nos. 261 and 262, July, Clamping Device for Core Plate.

Nos. 263 and 264, August, Making Castings of Uniform Thickness from Block Patterns.

No. 265, September, Fluxes for Nonferrous Metals.

No. 266, September, The Hardness of Bearing Metals.

Nos. 267 and 268, October, Scrap Metal Specifications for the Brass Foundryman.

Nos. 269 and 270, November, Heat Resisting Castings.

Nos. 271 and 272, December, Tests of Lead-Tin-Antimony Alloys.
